P51-870 TITAN Firmware Updater for MacOS
INSTRUCTIONS:
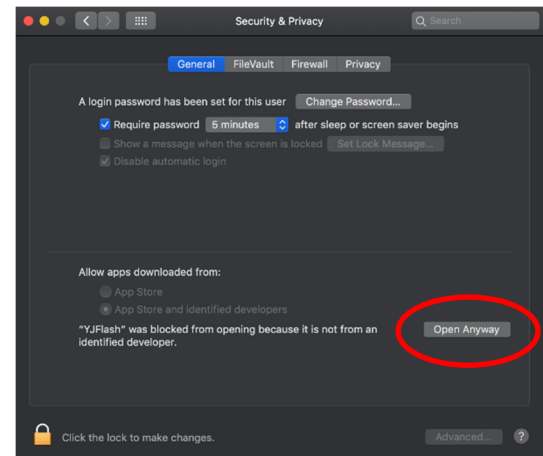

1. Click the link below or type this URL into your web browser:
   http://www.yellowjacket.com/downloads/mac/yjflash/yjflash.zip
2. Download the YJFlash.zip file.
3. Using the Finder on your MacOS computer, go to the Downloads folder and double-click on the YJFlash.zip file. This will extract the YJFlash app and place it in the Downloads folder.

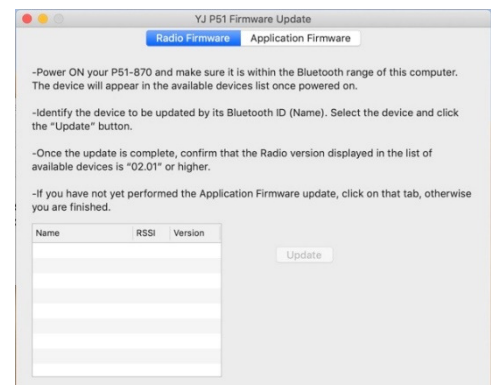

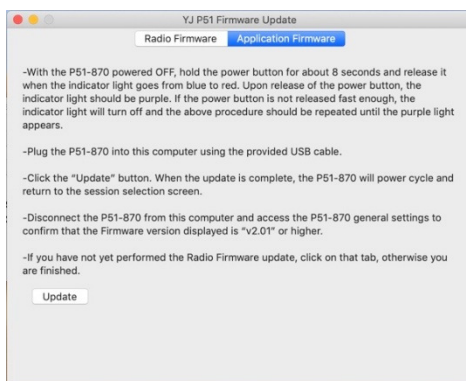

4. Double-click the YJFlash icon to run the app. If you choose, you can drag the icon onto your desktop or other location for easier future access.
5. You may receive a warning about opening an app developed by an unidentified developer like the screenshots below.

6. If you receive one of these messages, navigate to System Preferences> Security and Privacy>General. Click "Open Anyway" to allow the YJFlash app to run. Return to the YJFlash app and double-click the icon to open the app.

7. Follow the on-screen instructions to perform the Application (USB) and Radio Firmware updates.

NOTE: On newer versions of MacOS, you may need to allow "Input Monitoring" in System Preferences> Security and Privacy> Privacy. This is due to the USB communications used during the firmware update.
