	CE STANDARD CONFORMITY DECLARATION 2014/68/UE (PED)	

Aim: Define the categories of belonging of the products manufactured/distributed by WIGAM Spa according to the European Standard 2014/68/UE (PED)

NITROGEN REGULATOR

WIGAM pressure regulator model AZ200-50 is designed and manufactured for the connection to NITROGEN bottles, that must have connections with same flare features than the ones we find on the regulator.

WIGAM pressure regulator model AZ200-50 is excluded from standard 2014/68/UE (PED), but it is included in the category prescribed by art. 4 Paragraph 3 (table 1) and is thus projected and manufactured according to the usual correct manufacturing procedure, as well as according to the instructions of the Quality Manual.

It is dangerous to handle the regulator to modify or alter its functional features in any way.

It is the owner's duty and responsibility to use and maintain the product correctly; WIGAM declines all responsibility for harms to persons or damages to things, that are caused by the misuse of the product.

We specify that such equipment is not marked CE.
